## PROJECT EXPERIENCE

Static Personal Portfolio

Project Title: Personal Portfolio Website (Capstone1)

Role: Zuit Student (Front-end Developer)

[Project Link](#)

Description:

- Created a visually stunning personal portfolio website using HTML, CSS, and Bootstrap to Showcase, projects, skills, and professional achievements. The site is designed to be fully responsive, ensuring an optimal viewing experience across all devices.
- Developed portfolio with mobile-first design in mind. Interactive project gallery with mage light box and

custom C55 animations for a dynamic user experience. Styling with Bootstrap's grid system and components.

---

## PROJECT EXPERIENCE

E-Commerce Workflow Management System

Project Title: Dynamic E-Commerce Workflow Management (Capstone 2)

Role: Zuit student (Backend Developer)

[Project Link](#)

Description:

- Developed a full-featured e-commerce platform using the MERN stack (MongoDB, Express.js, React, Node.js). The platform includes essential functionalities to enhance user experience and streamline the management of online sales, such as product browsing, shopping cart management, user authentication, and secure payment processing. Created and optimized multiple pages, ensuring seamless integration and high performance, while implementing responsive design principles to provide an optimal viewing experience across various devices. Additionally, incorporated advanced features like order tracking, inventory management, and user reviews to further enrich the platform's capabilities. Conducted thorough testing and debugging to ensure a smooth, bug-free experience for users, resulting in a robust and efficient e-commerce solution.

## PROJECT EXPERIENCE

E-Commerce Platform Development

Project Title: MERN E-Commerce Platform

Role: Zuit Student (Full-Stack Developer)
